OFFICE ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312.

DRAWINGS: Figures 1, 2A-B, & 3A-B have been labeled "Prior Art"

CLAIMS: Canceled non-elected claims 10-32 (as being withdrawn *without* traverse, 2/23/05).

Allowable Subject Matter

3. Claims 1-9 are allowed. Following is the statement reason for allowance:

The closest prior arts: US 6,769,469 to *Yamada* discloses a process for mounting a semiconductor device by using a compression bonding head provided with a pressing chip at a predetermined position [Fig. 2b and col. 5-6]; and US 6,842,974 to *Maenishi et al* discloses a mounting method for placing electronic components to predetermined positions by component holding devices equipped with a plurality of removable suction nozzles which is operable to hold the electronic components [Fig. 3 and cols. 14, 19]. None of the cited arts teaches or suggests, *inter alia*, "the forming of the standard part does not substantially depend on the external sizes of the first and second electronic components."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance"
